The Wardrobe Door

Floyd Conger

- 1) The Bible was designed to be an interface with God, not a book of information about God.
- 2) Only by the Spirit of God can we understand the Word of God.
- 3) Only by the Spirit of God can we enter into the Kingdom of God

- 1) There is no point in understanding what it says without entering into what it says.
- 2) Except we become as little children we "shall by no means enter the Kingdom of Heaven."
- 3) Children enter, experts restrict entry.
- 4) All the Old Testament manifestations of God were just a prelude to the full expression of God in Jesus Christ.
- 5) His body is in heaven and on earth.
- 6) Jesus triumphed over rulers and authorities through the cross.
- 7) He cancelled our certificate of debt and nailed it to the cross— paid in full!
- 8) Through our union with Christ, we have been crucified with Christ; the old man was buried and the new creation man was raised from the dead. (New identity— sons of God),
- 9) The word of God without an encounter with God results in the "letter" without God. (The letter kills).
- 10) Living, walking, or ministering in our own wisdom and sufficiency makes the cross void.
- 11) Through the pneumatics of the Spirit we see and understand the will, calling, and divine plan for our lives.
- 12) Where the Spirit of the Lord is, there is liberty.
